

THE BELIZE VALLEY ARCHAEOLOGICAL RECONNAISSANCE PROJECT

Application Form

You are applying to join a research project which is operating in a culturally diverse country under conditions which will likely be quite different from those to which you are accustomed to in your home country. The project involves hard physical labor and the ability to live and cooperate in close quarters with others in a tropical environment. This questionnaire helps to ensure that the project operates smoothly and that we have some idea of your skills, interests, strengths, and weaknesses prior to the beginning of the field season. Please try to answer as accurately and completely as possible.

If this webpage does not automatically send when you click the "Submit Request" button, please fill in the PDF version of the application using Adobe Acrobat Professional. To fill in this form use the "TouchUp Text Tool" (i.e. Tools/Advanced Editing/TouchUp Text Tool). Instead of checking items off as in the online application form, just mark selections off with an "X." Having completed the form, rename the file as your full name using the "Save As" function and send it as an email attachment to Myka Schwanke (archaeology@bvar.org).

If you are experiencing difficulties using the text features of Adobe Acrobat Professional or if you simply do not have this software, you can copy and paste this application into your word processor or email and send the completed form via email to Myka Schwanke (archaeology@bvar.org). Note that in Adobe Acrobat Reader you can copy the content of PDF files to the clipboard by using the corresponding function under the "Edit" menu. Having done this you can paste (Ctrl+V) the form into a word processor or an email. Then fill in the form accordingly, but instead of checking items off as in the online application form, just mark selections off with an "X."

Thank you.

Belize Valley Archaeological Reconnaissance Application:

You are applying to join a research project which is operating in a culturally diverse country under conditions which will likely be quite different from those to which you are accustomed. The project involves hard physical labor and the ability to live and cooperate in close quarters with others in a tropical environment often in the middle of the jungle. This questionnaire helps to ensure that the project operates smoothly and that we have some idea of your skills, interests, strengths, and weaknesses prior to the beginning of the field season. Please try to answer as accurately and completely as possible.

Program (Choose One):

Space in the project is limited but we will try to place you in the session of your preference. Choose an alternate choice only if you are interested and are able to attend the session. If you select alternative choices please ensure that you indicate which your preferred (primary) and alternate (secondary) choice is.
